

Is it for me?

Aviva Investors Investment Funds ICVC

What is the Aviva Investors Investment Funds ICVC?

- An investment vehicle that enables you to invest in a choice of funds within a collective investment scheme.
- An ICVC (Investment Company with Variable Capital) is a collective investment scheme that pools your money with that of other investors who choose to invest in the same fund.
- A collective investment scheme comprises a number of underlying funds called sub-funds. In this scheme there are a range of sub-funds to choose from.
- Each sub-fund has a specific investment objective.
- Different sub-funds have different levels of risk.
- It aims to grow your investment, or allows you to take an income.

Does it make sense for me?

Yes, if you:

- are aged 18 and over
- have a lump sum of £1,000 or more to invest, or can make regular monthly payments of £50 or more
- are willing to invest for the longer term – realistically five years or more
- are prepared to accept some risk to both your capital and income – the value of both the investment and any income from it can go down as well as up and you may not get back what you put in
- have already considered or made longer term financial plans

No, if you:

- don't want to risk your capital or income
- aren't likely to stay invested for the next five years
- haven't already considered or made longer term financial plans

What to do next

Please read the Simplified Prospectus for further information. If you're still not sure whether this is the investment for you, or you have any queries, your financial adviser will be pleased to help you. Alternatively, you can contact us on 0800 051 2003. Telephone calls may be recorded for training and monitoring purposes. Calls are free from a BT landline. Costs may vary from mobiles and other networks.

We want to make sure you find our literature clear and easy to follow, so we'd welcome your feedback. If you think we could improve this information, please e-mail your comments to clarity@avivainvestors.com
